Slides Available From Our Managing FOSS Seminar

Last Thursday LinuxForce hosted a seminar on *Managing Free and Open Source Software (FOSS) for Business Results*. The Seminar home page now has links to the slides from the event. Specifically, there are four sets of slides available:

- What is Free/Open Source by Elizabeth Krumbach
- A Survey of FOSS Tools for Business Results by CJ Fearnley
- Using Open Source Web Applications to produce Business Results by Eric Lucas
- Managing FOSS for Business Results by CJ Fearnley

Please let us know if you have any questions about the content in the slides or from the seminar itself.
